

New Hampshire Pump Installer License Information

Introduction: A Pump Installer license is required of any entity or individual engaged in the installation of water pumps. Licensed plumbers and electricians are authorized to repair and service water pumps, however they must obtain a Pump Installer license to install or replace a water well pump. The NH Water Well Board issues two categories of licenses; domestic (up to three horsepower) and industrial pump installation.

Pump Installer License – Work Sheet

How To Apply:

- If you meet the professional requirements listed below, obtain an application from the DES Public Information Center at (603) 271-2975 or from the NH Water Well Board (603) 271-2410 or (603) 271-1974.
- Completely fill out the application, include all requisite experience and company/corporate information.
- Submit the application to the NH Water Well Board at least 10 days prior to the posted exam date.
- A pump installer license does not allow the company or individuals to perform well construction, development, or decommissioning.

Requirements:

- Experience: Applicants shall have a minimum three years of experience directly related to water pump installation.
- Examination: Exams are required of all applicants and are specific to license type.
